Knowledge

At **Integrated Print Solutions (IPS)** we understand the importance of a well defined business communications strategy. An intelligent partnership can provide organizations with the ability to consistently and proficiently execute these strategies. As your partner, IPS will provide a **360° Solution**, customized to fit your organizations unique objectives. Our commitment to our clients is continuously demonstrated through our results.

Technology

Our proprietary **technology** allows us to match each unique project with the most appropriate print technology. Designed to categorize, search, sort, grade, and track based on thousands of manufacturing criteria, **Project SCOPE** is an invaluable tool for our clients. Supported by full time research associates, we ensure our ability to continually deliver world class results.

We guarantee that our **technology** will yield the highest quality results at the lowest possible cost.

Process

Our **Progressive Print Management® (PPM)** model lies at the core of our value proposition and is essential to our ability in providing our clients with a **360° Solution**. **PPM** is the framework for all of our products and services including on-line ordering, fulfillment and warehousing, pick and pack programs, and document analysis.

PPM establishes the **processes** with which we develop, implement, monitor and improve upon all of our client programs.

Knowledge

As a business partner we provide our clients with extensive **knowledge** in the area of business communications. From the latest technological trends to the most current print technologies, IPS utilizes a consultative approach to understand our clients needs and strategically design custom solutions.

We have certified consultants on staff and maintain memberships with industry leading associations to remain on the cutting edge of both technology and training.

Accountability

At IPS we understand the importance of **accountability** and results. Our programs are custom crafted with our clients goals in mind. We also understand that objectives can change and plans must then be adjusted. It is our extensive documentation, reporting and program monitoring that allows us to quickly and easily pinpoint areas of growth and areas for improvement.

We realize that as partners we are responsible for **Delivering Measurable Results.**
